Third Graders Study Buoyancy

Berry Hill Third Graders are “floating” through their Buoyancy Science Unit. The students began their investigation by making and testing predictions about whether a variety of objects they collected would sink or float. Students discovered that more than one property, (size, weight, material and/or design) distinguishes whether an object is buoyant.

Dates to Remember

- PTA Ralph’s Ices: Monday, April 28, 2014, Lunch Periods
- Elementary Parent-Teacher Conferences: Monday, April 28, 2014, 3:15-4:00 PM
