

# Baylis Blast

## Brain Tumor Project

Winter 2014

*Stay Strong!*

*Hope you feel better!*

*Don't worry, be happy!*

Those were some of the caring messages written by Baylis students to children who are in the hospital and would appreciate these words of encouragement. Our students discussed how their cards will bring happiness to those who need a smile.

Every class received time to create these beautiful cards. Students filled their cards with positive messages and decorated them with beautiful pictures.
