Adele Bovard
Deputy Superintendent of Schools

Health and Dental Examination Requirements

Dear Parents/Guardians,

New York State law requires a health examination for all students **entering the school district for the first time and when entering Pre-K or K, 1st, 3rd, 5th, 7th, 9th, and 11th grade.**

The examination must be completed by a New York State licensed physician, physician assistant or nurse practitioner and on the approved NYSED Student Health Examination Form for School.

A dental certificate which states your child has been seen by a dentist or dental hygienist is also asked for at the same time. The school will provide you with a list of dentists and registered dental hygienists who offer dental services on a free or reduced cost basis if you ask for it.

- A copy of the health examination must be provided to the school before your child starts K, 1st, 3rd, 5th, 7th, 9th, & 11th grades. If a copy is not given to the school within 30 days, the school will contact you.
- For your convenience, a physical exam form and dental certificate for your health care providers can be found on the district home page in the "Parents" link in "Health Services."
- Students in grades 7 through 12 that are interested in playing a sport are encouraged to register their intention to play in Family ID at <https://hello.familyid.com/> and upload a current physical examination.
- Communication between private and school health staff is important for safe and effective care at school. Your healthcare provider may not share health information with school health staff without your signed permission. Please talk to your provider about signing their consent form for the school at the time of your child's appointment for the examination.

If you have questions or concerns about health examinations, please contact the School Health Office at your child's school.
