

Welcome back! We hope that you are all as excited as we are to start this new school year. We hope that you have all enjoyed your summer break. Now that you are refreshed, opportunities await you in the Syosset Schools!

During the summer, the Board of Education continued its efforts to keep our facilities work on track. Thank you for your patience and understanding. We too are looking forward to seeing some big reveals.

The Board also spent much time contemplating our mission for this incredible, unique District and developing long-term goals for our School District community. In September we will be ready to share the Board's Mission Statement and goals with the community and we look forward to working with you to support the goals that will help Syosset prosper and lead long into the future.

We are looking forward to introducing (and reintroducing) ourselves to you at the September and October PTA meetings.

Wishing you a happy and successful year,

Your Board of Education
