TOTAL POSITIVE CASES		24	9	15	14	8

Positive cases shown on 11/29/21 include all cases identified from November 24th through November 29th.

This chart represents the data reported to the District by 4 p.m. on the date indicated.

Cases identified over the weekend are reported on Monday.

Positive cases are reported to the community twice per week (on Tuesdays and Fridays).

Districtwide staff includes employees not assigned to a specific building.
