The Syosset Central School District

The Syosset Central School District serves the Syosset-Woodbury community in northeastern Nassau County, New York. The suburban area is home to middle and upper income residents, many of whom commute to New York City. Most of the adult population are college graduates engaged in business and professional careers. The schools enjoy a national reputation for academic excellence. There are ten schools for the 6,300 students enrolled in kindergarten through grade 12.

The High School Program

Syosset High School, grades 9 through 12, offers a broad variety of subjects including Advanced Placement courses in all major academic areas and computer science, Regents level courses, and programs for students with disabilities. Syosset High School also provides varied learning experiences through math, science and social studies research programs, electives in the humanities, interdisciplinary education, academic and community-based independent study, internships and cooperative work-study in business.

A professional staff of 240 members serves a population of approximately 2,200. The co-curricular program includes musical performing groups, publications, service and subject area clubs, and nearly 100 athletic teams. Syosset High School has an FM radio station and a TV studio.

Class Rank

The Syosset Central School District Board of Education has adopted a policy of not ranking students on cumulative average relative to their classmates. The highest GPA possible is 100. Honors and Advanced Placement courses are given an additional half point on the final grade of each course taken.
