September, 2024

Dear Baylis Community,

As we are approaching the start of early morning activities, I wanted to review our morning drop-off and afternoon pick-up procedures. Your partnership is greatly appreciated as we work to continue to provide a safe and smooth arrival and dismissal for all students.

Early Morning Drop-Off:

- If you are dropping off your child for an early morning activity (band, orchestra, extra help etc.) including SCOPE, please do not block the front circle.
- Early morning buses begin to arrive at the Baylis campus around 8:10 am, and the front circle needs to be clear for students as they exit the buses.
- If you are dropping off your child for an early morning activity, I am asking that you **park in one of the lots or at the end of the circle and escort your child to the main entrance.**
- Please wait for instructions from Security. **Students cannot enter the building prior to the arrival of the first bus, which is approximately 8:10 am.**

Regular Arrival – Drop-Off and PM Pick-Up Dismissal:

- Students begin entering the building at 9:03 am.
- **Please do not have your child exit your vehicle until a teacher is present to receive your child and escort them into the building.**
- **Please seat your child on the left side of your vehicle (driver's side)** to facilitate a safe exit.
- **Parents/Guardians please remain in your vehicle** so that the arrival drop off line moves quickly and efficiently.
- Parents or designated pick-up persons will need to present a government issued photo ID to staff when picking up your child.
- If you are on the car pick-up line, **students will enter on the left side** of the vehicle only.
- **Please do not park on Woodbury Road** as this poses a danger to you and the other drivers in the community.
- Be mindful of other Baylis parents that are picking up their children and **do not block the entrance into the parking lots.**
- **Parents/Guardians: do not exit your vehicle to greet your child.** We need to ensure that the car pick-up line moves quickly and efficiently.
- **Your child should be able to buckle or unbuckle themselves. If your child cannot do this yet or has difficulty carrying a large instrument, please park your car and escort him/her to the walker door on arrival or meet him/her at the walker door for dismissal.** This courtesy supports families who are on the car line and depend on the efficiency of it.

Thank you for your support.

Clara Y. Kang, Principal
