Principal

March 17, 2023

Dear Parents:

Please come join us for our annual Science & Technology Fair on **Thursday, March 23rd, from 6:00 – 7:00pm** in the school gymnasium. Over 150 student scientists, creators, and inventors from all grades have been busy developing their hypotheses, designing inventions, performing experiments and drawing conclusions about their thinking.

We are encouraging our student scientists, inventors, and innovators to fully participate in this experience by having the opportunity to share their learning with visitors. This year, participating students are asked to:

Student Presenters:

- Wear the Baylis Science & Technology Fair ribbon.
- Wear black pants and a white shirt.
- Stand in front of your project throughout the evening.
- Explain your project and what you have learned to visitors.

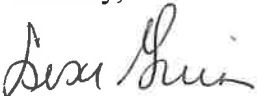

In an effort to ensure that all of our visitors have a safe and meaningful experience, please be guided by the following:

Visitors:

- Take the time to view as many projects as you can.
- Provide feedback to students. (They will love it!)
- Supervise young children to ensure their safety.

We are looking forward to your visit and participation in one of the most inspirational school events of the year. We are confident that you will be amazed with the talent and hard work of the Baylis student community!

Sincerely,

Ms. Lisa Greiner, Principal

Mr. Karson and Mrs. Fernandes, Science Fair Coordinators

[Note: Parents may bring their child's project home at the conclusion of the Science & Technology Fair @7:00pm to ensure that all parts are returned and remain intact.]
