October 2018

Syosset Board of Education Meeting

Note: The following presentation was given to the Syosset Board of Education at their October 15, 2018 public meeting in response to their request to research live-streaming of future public Board meetings.

# Streaming – Research Granicus Product

Issue	Comment
ADA Compliant?	Yes. Closed captioning can be made available for \$145 per hour or the District can provide its own stenographer (requires \$4000 steno keypad).
Records Retention?	Can provide for unlimited storage of documents/video.
FCC Compliance?	The system can be paused should objectionable speech take place (a policy should be in place).
Student Musical Performances?	We would have to obtain a mechanical license from the copyright holder of each piece of music performed. Likely very difficult for concerts.
Students with Photo Objection?	The system can be paused in the event a student with a photo objection is speaking.
