

Syosset Central School District – Final Smart Schools Investment Plan

Approved - 3/20/2017

Background

The Smart Schools Bond Act was approved by the voters of New York in a statewide referendum. The Smart Schools Bond Act (SSBA) authorized the issuance of \$2 billion of general obligation bonds to finance improved educational technology and infrastructure to improve learning and opportunity for students throughout the State. The SSBA requires that a Review Board review and approve districts' Smart Schools Investment Plans before any funds may be made available for the program. The district's allocation is approximately \$1.2 million and below is the district's Preliminary Smart Schools Investment Plan.

Preliminary Smart Schools Investment Plan

It is the intent of the Syosset Central School District to utilize \$712,940 of its approximately \$1.2 million allocation of smart bond funds to construct security vestibules equipped with high tech security features at all 10 schools in the district. The goal of the investment is to increase the security of our schools primarily through the installation of door hardening and security access systems in all buildings.
