

SYOSSET CENTRAL SCHOOL DISTRICT

INTERNET SAFETY

Policy 4526.1

The Board of Education is committed to undertaking efforts that serve to make safe for children the use of School District computers for access to the Internet and World Wide Web. To this end, although unable to guarantee that any selected filtering and blocking technology will work perfectly, the Board of Education directs the Superintendent of Schools to procure and implement the use of technology protection measures that block or filter Internet access by:

- adults to visual depictions that are obscene or child pornography,
- and minors to visual depictions that are obscene, child pornography, or harmful to minors, as defined in the Children's Internet Protection Act.

Subject to staff supervision, however, any such measures may be disabled or relaxed for adults conducting bona fide research or other lawful purposes, in accordance with criteria established by the Superintendent of Schools or his /her designee.

The Superintendent of Schools or his/her designee also shall develop and implement procedures that provide for the safety and security of students using electronic mail, chat rooms, and other forms of direct electronic communications; monitoring the online activities of students using School District computers; and restricting student access to materials that are harmful to minors.

In addition, the Board of Education prohibits the unauthorized disclosure, use and dissemination of personal information regarding students; unauthorized online access by students, including hacking and other unlawful activities; and access by students to inappropriate matter on the Internet and World Wide Web. The Superintendent of Schools or his/her designee shall establish and implement procedures that enforce these restrictions.

The computer network coordinator designated under the School District's policy on the acceptable use of School District computers shall monitor and examine all School District computer network activities to determine compliance with this policy and accompanying regulation. He or she also shall be responsible for providing staff and students with training on the requirements set forth herein.

All users of the School District's computer network, including access to the Internet and World Wide Web, must understand that use is a privilege, not a right, and that any such use entails responsibility. They must comply with the requirements of this policy and accompanying regulation, in addition to generally accepted rules of network etiquette, and the School District's policy on the acceptable use of computers and the internet. Failure to comply may result in disciplinary action including, but not limited to, the revocation of computer access privileges.

As part of this policy, and the School District's policy on acceptable use of School District computers, the School District shall also provide age-appropriate instruction regarding appropriate online behavior, including:

1. interacting with other individuals on social networking sites and in chat rooms, and

2. cyberbullying awareness and response.

Instruction will be provided even if the School District prohibits students from accessing social networking sites or chat rooms on School District computers.

INTERNET SAFETY REGULATION

The following rules and regulations implement the Internet Safety Policy adopted by the Board of Education to make safe for children the use of School District computers for access to the Internet and World Wide Web.

I. Definitions

In accordance with the Children's Internet Protection Act,

- Child pornography refers to any visual depiction, including any photograph, film, video, picture or computer or computer generated image or picture, whether made or produced by electronic, mechanical, or other means, of sexually explicit conduct, where the production of such visual depiction involves the use of a minor engaging in sexually explicit conduct. It also includes any such visual depiction that (a) is, or appears to be, of a minor engaging in sexually explicit conduct; or (b) has been created, adapted or modified to appear that an identifiable minor is engaging in sexually explicit conduct; or (c) is advertised, promoted, presented, described, or distributed in such a manner that conveys the impression that the material is or contains a visual depiction of a minor engaging in sexually explicit conduct.
- Harmful to minors means any picture, image, graphic image file, or other visual depiction that (a) taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion; (b) depicts, describes or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and (c) taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

II. Blocking and Filtering Measures

- The Superintendent of Schools or his/her designee shall secure information about, and direct the purchase or provision of, a technology protection measure that blocks access from all School District computers to visual depictions on the Internet and World Wide Web that are obscene, child pornography or harmful to minors.
- The School District's computer network coordinator shall be responsible for ensuring the installation and proper use of any Internet blocking and filtering technology protection measure obtained by the School District.
- The computer network coordinator or his or her designee may disable or relax the School District's Internet blocking and filtering technology measure only for adult staff members conducting research related to the discharge of their official responsibilities.
- The computer network coordinator shall monitor the online activities of adult staff members for whom the blocking and filtering technology measure has been disabled

or relaxed to determine there is not access to visual depictions that are obscene or child pornography.

III. Monitoring of Online Activities

- The School District's Computer Network Coordinator shall be responsible for monitoring to determine that the online activities of staff and students are consistent with the School District's Internet Safety Policy and this regulation. He or she may inspect, copy, review, and store at any time, and without prior notice, any and all usage of the School District's computer network for accessing the Internet and World Wide Web and direct electronic communications, as well as any and all information transmitted or received during such use. All users of the School District's computer network shall have no expectation of privacy regarding any such materials.
- Except as otherwise authorized under the School District's Computer Network or Acceptable Use Policy, students may use the School District's computer network to access the Internet and World Wide Web only during supervised class time, study periods or at the school library, and exclusively for research related to their course work.
- Staff supervising students using School District computers shall help to monitor student online activities to determine the appropriateness of student access to the Internet and World Wide Web, and/or authorized forms of direct electronic communications in accordance with the School District's Internet Safety Policy and this regulation.
- The School District's Computer Network Coordinator shall monitor student online activities to ascertain whether students are engaging in hacking (gaining or attempting to gain unauthorized access to other computers or computer systems), and other unlawful activities.

Regulation 4526.1-R

IV. Training

- The School District's Computer Network Coordinator shall provide training to staff and students on the requirements of the Internet Safety Policy and this regulation at the beginning of each school year.
- The training of staff and students shall highlight the various activities prohibited by the Internet Safety Policy, and the responsibility of staff to monitor student online activities to determine compliance therewith.
- The School District shall provide age-appropriate instruction to students regarding appropriate online behavior. Such instruction shall include, but not be limited to: positive interactions with others online, including on social networking sites and in chat rooms; proper online social etiquette; protection from online predators and personal safety; and how to recognize and respond to cyberbullying and other threats.
- Students shall be directed to consult with their classroom teacher if they are unsure whether their contemplated activities when accessing the Internet or Worldwide Web are directly related to their course work.
- Staff and students will be advised to not disclose, use and disseminate personal information about students when accessing the Internet or engaging in authorized forms of direct electronic communications.
- Staff and students will also be informed of the range of possible consequences attendant to a violation of the Internet Safety Policy and this regulation.

V. Reporting of Violations

- Violations of the Internet Safety Policy and this regulation by students and staff shall be reported to the Building Principal.
- The Principal shall take appropriate corrective action in accordance with authorized disciplinary procedures.
- Penalties may include, but are not limited to, the revocation of computer access privileges, as well as school suspension in the case of students and disciplinary charges in the case of teachers.
